Leadership Edge

What do we mean by **Leadership Edge**?

- ✓ Self Management
- ✓ Mindset and Approach to Change
- ✓ Communication – Leading change
- ✓ Building Resilience
(For you, your team, and your organization)

Maintaining Your Leadership Edge

- Our friend **ego**. The challenge of ego needing to look good – keep it all together
- Aren't leaders supposed to have all the answers and know what to do in times of uncertainty & significant change?
- Who do we talk to about our challenges?

Mindful Moment

A tall, balanced stack of smooth, reddish-brown rocks in a desert landscape under a clear blue sky. The stack is composed of several layers of flat, rounded stones, with the top layer being the most delicate. The background shows a clear blue sky and some sparse desert vegetation.

- What have you noticed about this shift in the leadership landscape?
- How does this shift impact what your team/organization needs?
- How is your leadership impacting your team and your organization?
- What can you do to maintain your leadership edge?
